

Weekly Highways Update - w/c 21 January 2019

Please see below summary of key highways activities and projects to be aware of over the next week.

Ongoing works:

Cleethorpes Regeneration – Works continue along High Street to excavate sections of existing footway. These works will continue in the coming weeks.

**High Street,
Cleethorpes**

Town Hall Square, Grimsby - Works continue outside the Municipal Offices to excavate the existing footway. These works will continue next week. The laying of the new kerbs and paving is expected to commence within the next two weeks. The paving products being used on this scheme, will match the existing paving products on Bethlehem Street and Osbourne Street.

**Town Hall
Square,
Grimsby**

Completed works:

Simwhite Bridge, Frederick Ward Way – Urgent works to resurface a section of carriageway on Simwhite Bridge were completed on Wednesday 16th January 2019. These works ensured the structural integrity of this structure is maintained.

**Simwhite Bridge,
Frederick Ward
Way**

Major utility works

- **Anglian Water** will be carrying out works to install a new water main along **Kings Road Cleethorpes** from the junction of Chichester Road to North Sea Lane Roundabout and including St. Anthony's Bank Road. These works will continue through until March 2019. Temporary traffic signals will be in place to manage traffic flows. Emergency contact number 0800 244222 Option 1. <https://roadworks.org/?106262632>
